

# Alcimed

Alcimed Singapore is part of the "Smart Health initiative", an initiative which aims to promote French expertise in the healthcare sector through a visible and integrated community of French healthcare actors in Singapore.

The objective is to bring French actors to participate in projects of focus for Singapore: innovation in health via digital tools, the silver economy and at -home care, fight diabetes in the region, ...

The platform which sum-up all this French expertise is now active and has been officially launched in June 2017 .
